

Special Session Bermudes on  
“Scheduling problems in production systems”  
for **MOSIM’10**

May 10-12, 2010 - Hammamet, Tunisia

<http://www.enim.fr/mosim10>

**Session Chairs**

- Sylvie Norre, LIMOS, Clermont-Ferrand (norre@moniut.univ-bpclermont.fr).
- Ameer Soukhal, LI, Tours (ameur.soukhal@univ-tours.fr).

**Session Description**

The purpose of this Bermudes session is to present recent works on scheduling problems in production systems. It could be new methods, new problems or classic problems involving particular constraints issued from real applications. Because of the conference topics, submissions coupling optimization methods and simulation models will be of particular interest.

**Session Topics**

- Workshop scheduling
- Resource Constrained Project Scheduling,
- Optimization and Simulation,
- Approximated methods: metaheuristics, heuristics, ...
- Exact methods

**Submission:** Authors are requested to provide a full paper of 10 pages maximum written in English or French, in accordance with the template format of the conference. The authors must submit their draft papers online and select the special Bermudes session “Scheduling problems in production systems” at <http://www.enim.fr/mosim10>

**Important dates:**

**October 31<sup>st</sup>, 2009:** deadline for paper submission

**January 29<sup>th</sup>, 2010:** notification of acceptance/reject

**February 26<sup>th</sup>, 2010:** deadline for final paper submission
